

# WORK AT THE HEART OF CHANGE – ANCA

## VIDEO TRANSCRIPT

Working at the heart of change has always been the way of doing things at Accenture. When you embrace the challenges and you have the support of others, you allow yourself to find new ways of thinking and eventually you succeeding. In other words, you unleash your full potentia and build amazing things.

Looking back at my 14 years journey with Accenture, I realize how much it changed me and how much I evolved both as a professional and as a human being. I became a better version of myself, and I am still evolving each day. Also, the people I have met along the way have had a great impact on me, so much so they became my friends and my role models.

Driving and embracing change with confidence, as a permanent way of moving forward, helped me create a meaningful and stable career in a strong environment where all our great achievements are nothing but a shared success. We know we are stronger together.
